**1.0 Preamble:**

Gujarat contributes more than 7.5 percent to India's GDP and 18 percent to India's fixed capital. More than 10% of the country's factories are in Gujarat while its manufacturing sector contributes 28% to its GSDP. Besides a robust primary economy, Gujarat is also one of the most industrialized states with dominance in many industry sectors. However, there are some sick enterprises out of large number of manufacturing enterprises in the state.

Sick enterprises lead to problems like unemployment, revenue loss to State and Central Government and increase in non-productive assets. Sickness is due to various reasons like obsolete product or technology, poor management, financial and marketing problems etc. This needs support from financial institutions, Government and from owners for converting non-productive assets to productive assets.

State Government earlier vide G.R. dated 12/05/2004 and 15/07/2010 had introduced Schemes for relief to the sick industrial companies registered with the BIFR/GBIFR. Under these schemes, number of sick enterprises has taken advantage for rehabilitation of their units. As the time limit of these existing schemes are over, it was under consideration of State Government to give relief and concessions to viable sick MSMEs and large enterprises for converting their non-productive assets into productive assets.
